

# Hydromassage Will Add Value To Your Business

## Sidmar Hydromassage Tables Will Help Your Clients Achieve Total Relaxation and An Escape From Everyday Life!

Imagine how you felt the last time you were in a hot tub. The warmth of the water relaxed you and the pressure of the water jets against your

body soothed your aches and pains. Now imagine feeling this way without undressing or getting wet. That's what our hydromassage tables feel like.

Just lie back, set the timer and within fifteen minutes you will achieve a state of total relaxation.

Hydromassage is private, affordable and no one touches you. It's just you and the table in a quiet area. 15 minutes is all it takes.

From the moment you lay on our hydromassage table until your session ends, you'll understand why hydromassage is so popular!

## How Hydromassage Works

Just under the surface of the table is a mattress filled with heated water. A pump propels the water toward the client through three patented hydro-jets. The pressure of the water against the body provides the massage. Each jet spins at more than 200 revolutions per minute. A primary wave and a lighter secondary wave combine to produce a very

effective massage to all areas of the spine simultaneously.

The therapy can be applied to nearly every part of the body by simply changing your position on the table. The combination of flotation, heat and massage produce the therapeutic effects that will bring total relaxation to your clients.

### MESSAGE TIME PRO

The Professional model has been working steadily since 1996 in clinics around the country and even the world. It is designed and built to stand up to continuous use in clinical and commercial settings. Simple controls adjust time, pressure and temperature to the desired settings. The pressure is adjustable from 12 to 17 pounds. **\$2,999 plus shipping**

### RejuvaWave

Our most attractive design. Made specifically for the those that want their equipment to look as relaxing as their services. The RejuvaWave model has all the features of the Pro model plus custom upholstery and an electronically controlled motor giving the user a better massage experience. Each session starts softly and builds to your selected intensity.

When the session is over the pressure is gradually reduced to a stop. A wider range of settings allows you to adjust the pressure from a gentle 2 pounds to an invigorating 20 pounds. **\$4,199 plus shipping**

# Hydromassage Will Make You Money

**Consider Sidmar's Hydrotables Your Next Best Investment  
We give you more than any other brand.**

## The Look of Relaxation

You're selling relaxation so your equipment should look the part. Every other hydrotable is made of hard plastic and looks medical and not relaxing. Most

other hydrotables will stick out like a sore thumb in your calming environment.

## Quiet and Peaceful

Noise is a concern in a relaxing environment and no other hydrotable is as quiet as a Sidmar table.

## Quick Return on Investment

No matter what kind of business you own, return on investment is critical to your profitability. Sidmar hydrotables are the most affordably priced providing

the quickest return on investment. This means less out of your pocket and more into your pocket.

## Minimal Maintenance

Other brands require periodic draining and refilling. Not so with a Sidmar hydrotable. Just add a conditioner every 3 months and top off the water level. That's it! The total maintenance cost per year is only about \$50.

## Customized Marketing Materials

Once you decide to invest in any hydromassage table, you're left with "What do I do with it now?" Sidmar has all the marketing you need to introduce it to your clients and then sell time on the tables. All of it is available online so can access it anytime you want. Go

to [www.sidmar.com/login.html](http://www.sidmar.com/login.html) to create a free account which gives you access to the marketing materials.

You can customize all the marketing pieces with your company information and you can control the prices you charge for it. Print what you need, whenever you need it.

## Drive Traffic to Your Business

Sidmar's website drives traffic to your business through our "Try a Table" program. Visitors to our website are presented with "Try a Table" on every page. They can enter their zip code and they

will be presented with a listing of businesses in that area that have a table. Just create an online account and your name will show up in the list. The web visitor clicks on your name and prints a customized coupon for a free 15 minute hydromassage at your business. When they come in, you have the opportunity to sell them hydromassage and every other service you offer. What's a new customer worth to your business?

## Sell Hydrotables to Your Clients

The final plus is something no other hydrotable brand can offer you. You will discover from the very first day that your clients will love the tables. Many will say how great it would be to have

one in their home. When someone buys a hydrotable, you will profit \$500 to \$800. You take the order and we ship the table directly to your client's home. No inventory, no extra investment, no assembly or warranty to provide. We do it all. Just another simple way to earn more from your investment in a Sidmar hydrotable. The fact is we have sold hundreds of hydrotables this way.
