

RejuwaWave
Hydromassage Tables

Therapeutic Massage for The Entire Body

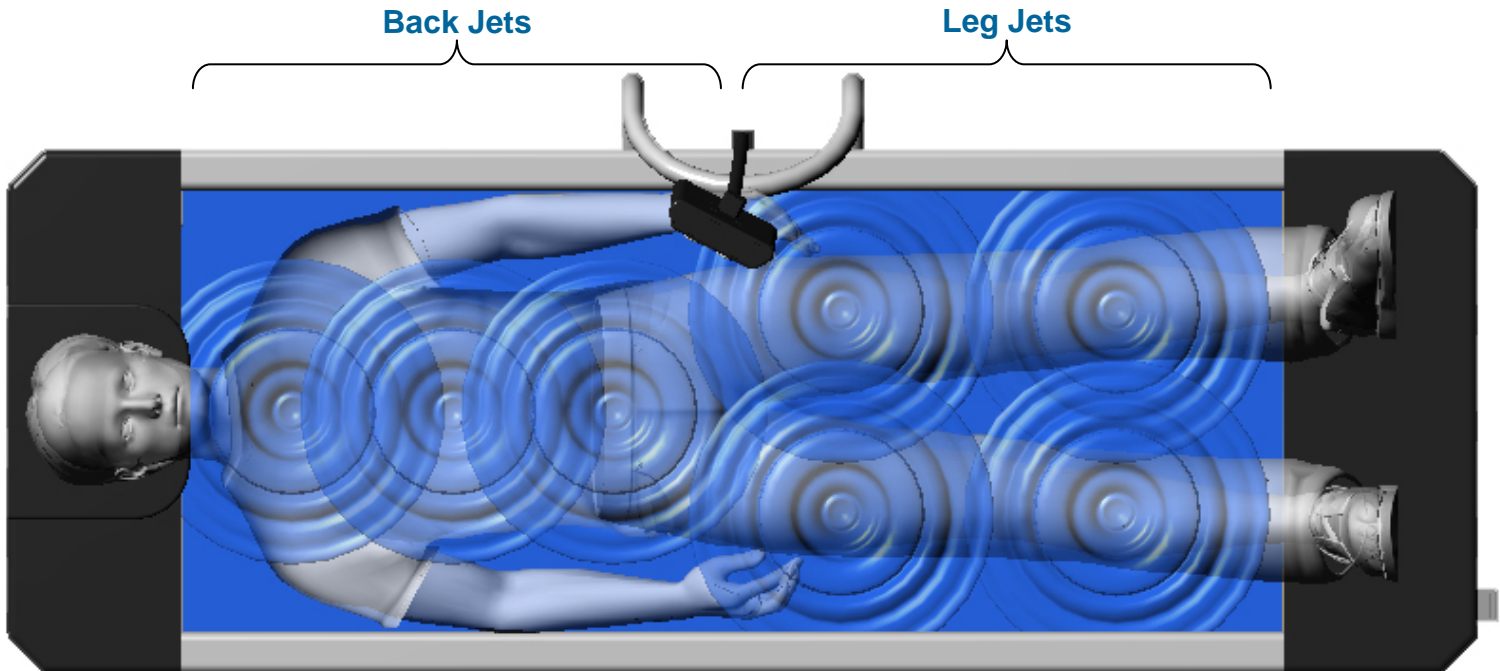

Imagine the incredible feeling of your body massaged by pulsating jets of warm water. From your neck to your calves, hydrotherapy jets deliver powerful streams of water that impact your body, producing a kneading massage. The deep, penetrating hydromassage helps lower blood pressure, increases blood circulation, loosens tight muscles and releases endorphins, the body's natural pain killers.

RejuwaWave Enhances the Care You Give and Improves Patient Satisfaction.

RejuvaWave tables use seven of our unique, patented, stainless steel hydrotherapy jets to produce a penetrating massage that works deeper and deeper into the soft tissues the longer you stay on the table. The randomness of the independently rotating jets enhances the massage and helps the body relax more deeply. You can select back or leg massage, with the option of full body massage, on our FB200 model.

Selectable Massage Zones: Full Body, Back, Leg or Alternating Massage - Adjustable During Treatment

Benefits of Hydromassage Therapy

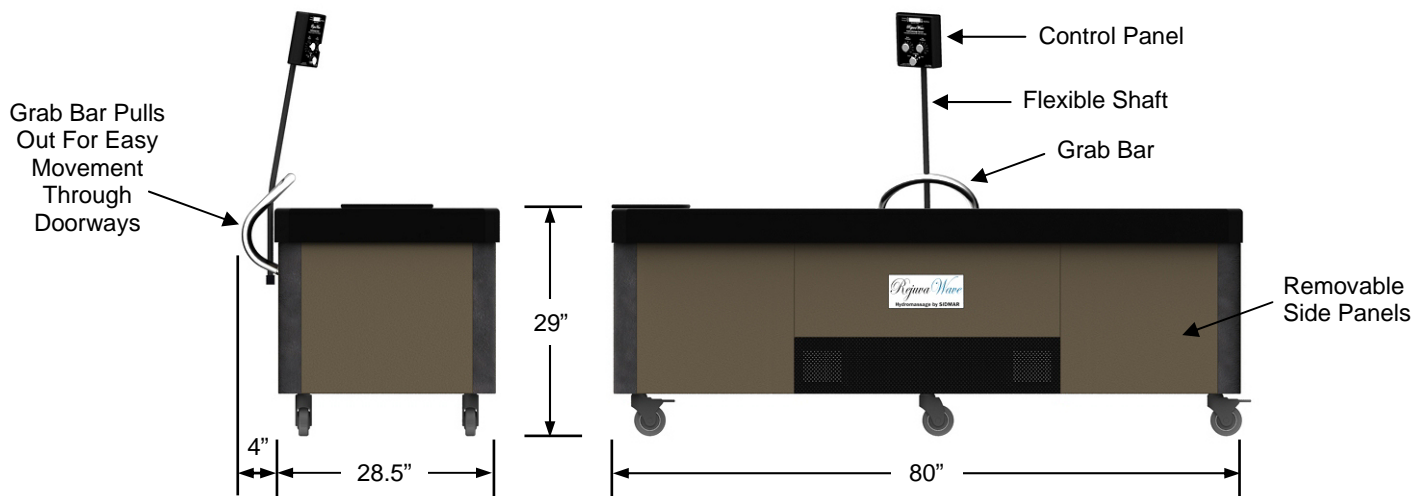

- Diminished aches and pains
- Relaxed muscles move easier with increased range of motion
- Increased blood circulation improves body function
- Overall relaxation and calmness reduces stress and clears the mind
- Relaxed patients respond better to your care

Hydromassage — An Effective Alternative to Hands-On Massage

- Hydromassage is done through the clothing saving time and the potential embarrassment of having to undress
- No oils so you don't feel uncomfortable afterwards
- Because it takes as little as 10 minutes, even the busiest person can find the time
- You relax more deeply as hydromassage is done alone
- Inexpensive — anyone can afford it
- **RejuvaWave** never takes a day off — avoid all the costs of employing a massage therapist
- Massage therapists work on one area at a time — **RejuvaWave** massages the whole body the entire time

Hydromassage — A Practice Building Tool

- Easily integrates into your treatment plans
- Enhances the care you provide
- Helps manage patient flow
- Improves patient satisfaction – patients just love it – once they try it, they will ask for it every time
- Generates free word-of-mouth advertising to help grow your practice

RejuvaWave Features

- Grab bar makes getting on and off very easy
- Intuitive controls require no training
- Flexible control shaft allows infinite positioning for people of varying heights and sight abilities
- Selectable full body, back, leg or alternating massage – adjustable during treatment
- Wide range of pressures to suit every need from gentle and soothing to powerful and invigorating
- Soft starting and soft stopping makes for a very relaxing experience
- Massage every part of the body by simply changing position on the table
- Quiet operation – fits well in a soothing environment
- Easy disinfecting between patients, just spray and wipe
- Electronic timer remembers the last treatment setting – adjustable to 99 minutes
- Unique cervical jet position delivers a powerfully effective neck massage
- Head remains stable improving comfort for people affected by vertigo or dizziness
- Laying on a water-filled mattress results in excellent heat transfer
- Lockable 4" casters make it very easy to move the table
- Adjustable temperature - 70° F to 107° F
- Removable side panels allow access to all internal parts without draining the water
- Built-in radiators keep water from over-heating during continual use
- Our patented, stainless steel hydro-jets are strong and produce the best water flow in the industry
- Least maintenance of any brand – no semi-annual draining or cleaning ever required
- Very inexpensive to operate – only pennies per treatment
- Lowest total cost of ownership of any brand

Intuitive Control Panel

FB200 Control: Full Body, Back, Leg or Alternating

RejuvaWave tables come in 3 standard colors with black accents throughout. Our upholstery, Magnificent Faux Leather, offers a luxurious, soft and supple feel. It is easily cleaned and will look good for years with very little care.

Standard Color Choices: Taupe, Black and Gray

Optional Colors: These non-stock colors are available at no extra charge. Your order will take a few days longer to ship as we order these colors once you place your order.

Care and Maintenance

Caring for your Sidmar table is easier than any other brand. Simply wipe the top with a disinfectant or warm wet cloth, add conditioner to the water every 3 months, and add water as it evaporates. That's it. The table comes with complete use and care instructions.

Warranty

Every table is backed by a one year warranty against defects in materials and workmanship. If a part becomes defective during this time, we will repair or replace the part.

The tables are designed and manufactured by SIDMAR in Princeton, Minnesota USA. We hold patents for hydrotherapy jets and hydromassage tables. In business since November 1992, our founder's hydrotherapy history dates back to the 1970's. We believe products should be supported throughout their useful life. You can count on us to provide knowledgeable support for years to come.

We are committed to building the most reliable, reasonably priced hydrotherapy tables available anywhere. Thank you for reviewing this information. We look forward to serving you.
