

Wipeable Mattress Covers

You can purchase our new wipeable mattress covers for \$35 plus shipping. They are made out of a 200 denier black nylon with a waterproof coating. You simply remove your existing cloth cover and put the new wipeable one in its place. ***The new wipeable cover allows you to simply wipe off the table after each use.***

Everyone that uses the table will appreciate how much cleaner the product is and you save the time and resources it took to launder the covers or towels.

You can now clean the table by simply wiping it down with warm soapy water or a disinfectant wipe.

The new covers have made patients more comfortable laying on the tables and reduced my constant laundering of the old cloth covers. I wish they had these 4 years ago! Totally worth the small outlay. Dr Andrei Razsadin
